

ROVANIEMI

## Instructions for Covid19 testing when arriving to Rovaniemi airport

If you are born in 2005 or before and arrive from a country where the incidence of Covid19 is greater than 10 per 100000, **it is mandatory to get tested within 24 hours after arrival when you do not have a certificate of one of the following:**

1. Full or incomplete series of EMA-approved Covid19 vaccinations at least 2 weeks before arrival
2. Laboratory-proven Covid19 infection less than 6 months before arrival
3. Negative test result for Covid19 less than 72 hours before arrival

**You also have to get tested within 3–5 days after arrival in any of the following cases:**

1. You have been tested within 72 hours before arrival.
2. You have not been tested within 72 hours before arrival and need to take the first test within 24 hours after arrival.
3. You have an incomplete series of Covid19 vaccinations.

You are responsible for getting tested. According to the Finnish law, breaking this rule will be punished with a fee. Testing is free of charge.

You should avoid contact with other people until you have gotten a negative test result from the second test.

You can go to the testing points without an appointment. In Rovaniemi they are located at the city center approximately 10 km from the airport:

### **Mehiläinen drive-in testing point**

Address: Sairaalakatu 1.

Opening hours: Mon–Fri 7.30–14.30am, Sat–Sun 8.30–11.30am.

Arriving: You can arrive by car, but also by walking or by bike.

### **Terveystalo testing point**

Address: Revontuli shopping centre, 1st floor (Koskikatu 27)

Opening hours: Mon–Tue at 7.20am–2pm, Wed–Fri at 7.20am–1pm.

If you continue your trip to some other location from Rovaniemi, you will have to find out the local testing point and go to the second test there.

EMA-approved vaccinations:
